

Safety Data Sheet

Section I – Product/Company Identification

Trade Name: DEEP PREP
Chemical Name: Coconut Oil, Natural Beeswax, Lanolin, Methylparaben, Propylparaben, BHA, Disodium EDTA

Manufacturer's Name: Sutton Scientifics, Inc.

Address: 246 W. College Street, Star, NC 27356

Emergency and Information Telephone Number: 910-428-1600

Revision Date: FEBRUARY 12, 2016

Section II – Hazard(s) Identification

HMIS® Hazard Ratings: Health –0, Flammability – 1, Chemical Reactivity – 0

HMIS® rating involves data interpretations that may vary from company to company. They are intended only for rapid, general identification of the magnitude of the specific hazard. To deal adequately with the safe handling of this material, all the information contained in the MSDS must be considered

Section III – Composition Information on Ingredients

Component

Coconut Oil, Beeswax, SSI Modified Lanolin, Methylparaben, Propylparaben, BHA, Disodium EDTA

Section IV – First-aid Measures

Inhalation: N/A
Eyes: If cream comes into contacts with eyes, immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Seek medical advice.
Skin: If allergic irritation begins, wash skin thoroughly and discontinue use. Get medical attention if irritation continues.
Ingestion: Seek medical advice.

Section V – Fire Fighting Measures

Extinguishing Media: UL listed Type “K” fire extinguisher, UL wet chemical extinguishing system or water spray

Special Fire-Fighting Procedures: Wear self-contained breathing apparatus and protective clothing. Avoid use of water as it may spread fire by dispersing oil. Use water to keep fire exposed containers cool.

Hazardous Combustion Products: Carbon dioxide, Carbon monoxide

Unusual Fire and Explosion Hazards: Care should be taken care around open flame with fabric or sheets exposed to product. Sheets, towels or other fabrics should be thoroughly cleaned prior to placing into a dryer.

Section VI – Accidental Release Measures

Spilled product may constitute a slip hazard. Scoop up and clean with everyday cleaning agents such as soap and water. Product is biodegradable.

Section VII – Handling and Storage

Personal Precautionary Measures: Spilled product may create slip hazard

Prevention of Fire and Explosion: Keep from contact with strong oxidizing materials. Do not expose to open flame.

Storage: Keep container closed and out of extreme heat.

Section VIII – Exposure Controls/Personal Protection

Country specific exposure limits have not been established or are not applicable unless listed below.

Ventilation: N/A

Respiratory Protection: N/A.

Eye Protection: Eye contact not recommended

Recommended Decontamination Facilities: N/A

Section IX – Physical and Chemical Properties

Physical Form: Semi-solid paste

Color: Pale yellow

Odor: Characteristic lanolin odor

Specific Gravity: Approximately .85

Softening Point: Solidification begins approximately 59° C

Solubility in Water: Insoluble

Thermal Decomposition Temperature: N/A Not tested.

Section X – Stability and Reactivity

Stability: Stable

Incompatibility: Do not expose to strong oxidizing agents.

Hazardous Polymerization: Will not occur.

Section XI – Toxicological Information

Acute toxicity data, if available, are listed below.

Section XII – Ecological Information

Acute toxicity data, if available, are listed below. Material is bio-degradable.

Section XIII – Disposal Considerations

Discharge, treatment, or disposal may be subject to national, state, or local laws.

Section XIV – Transport Information

Marine pollutant components: None unless listed below

DOT (USA): Class not regulated

TDG (Canada): Class not regulated

ICAO Status: Class not regulated

IMDG Status: Class not regulated

Section XV – Regulatory Information

WHMIS (Canada) Status: noncontrolled

Carcinogenicity Classification (components present at 0.1% or more): none, unless listed below

TSCA (US Toxic Substances Control Act): All components of this product are listed on the TSCA inventory. Any impurities present in this product are exempt from listing.

DSL (Canadian Domestic Substances List) and CEPA (Canadian Environmental Protection Act): All components of this product are listed on the DSL. Any impurities present in this product are exempt from listing.

EINECS (European Inventory of Existing Commercial Chemical Substances): All components of this product are listed on EINECS. Any polymer present in this product has regulatory clearance under Directives of the European Union.

AICS / NICNAS (Australian Inventory of Chemical Substances and National Industrial Chemicals notification and Assessment Scheme): All components of this product are listed on AICS or otherwise comply with NICNAS

Section XVI – Other Information

The information contained herein is based on current knowledge and experience; no responsibility is accepted that the information is sufficient or correct in all cases. Users should consider this data only as a supplement to other information. Users should make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials, the safety and health of employees and customers, and the protection of the environment.
