

GYN Drape

McKesson GYN drapes deliver optimal protection and performance in creating and maintaining a sterile field during surgery. The drapes are specifically designed with an SMS fabric reinforcement that provides fluid repellency, added durability and patient comfort. For use in perineal and gynecological procedures.

Features and Benefits

- Impervious PE film prevents fluid strike-through to avoid contaminating bedding and equipment
- Low-linting fabric properties reduce particle generation
- Flame-resistant materials prevent ignition risks associated with the use of high-energy medical devices during surgery
- Graduated markings for convenient fluid measurement
- Not made with natural rubber latex
